

E-ZEE Cotton Soft

Article Description	Embroidery Backing
Composition	100% Recycled Cotton
Weight in g per m ² (± 5%)	50g, 60g, 80g
Make Up Available	50g: 90cm x 200m 6 rolls à 30cm x 50m 60g: 90cm x 200m 80g: 90cm x 100m
Color	white and black
How to remove	tear away
Main areas of application	temporary embroidery stabilizer

Features

- Cotton Soft is very easy to tear away in both directions.
- Compared to cut away and tear away backings in other material composition, Cotton Soft has to be framed with more care. Don't frame it too tight and don't try to pull it at the edge after it has been framed. It might tear easily!
- Once washed, Cotton Soft might leave few residues on the back of the embroidery, but they will feel like wadding. The embroidery itself will feel very soft.

Recommendations for care

Generally, it is better to remove backings and toppings after the embroidering process. Especially when using tear away backings such as Cotton Soft, this will prevent fibers that have become loose during the washing from sticking on the textile..

After tearing away Cotton Soft there will be almost no residue left around the embroidery. Therefore Cotton Soft does not play a major role when considering how to best take care of embroidered garments.
